WHERE ARE YOU GOING

FOR HEALTH AND PLEASURE

THIS SUMMER?

The great mass of snow in the Sierra this year will give the waterfalls of Yosemite a splendor never equaled before.

The **Hotel del Monte**, fairest spot in California, invites you. It is not expensive. Ever camped in the **Santa Cruz Mountains**? If not, you have never lived.

If you want to see nature's noblest handiwork, visit grand old **Snow-crowned Shasta.**

And there are **Lakes**,—Tahoe, Donner, Independence, Webber and others,—where there are the purest air and the best fishing and boating in the world.

Of course you remember **Santa Monica, Long Beach and Santa Barbara.**

Looking for **Springs**? There are the Geysers, Napa Soda, White Sulphur, Bartlett, Hyron, Etna, Highland, Klamath, Congress, Paso Robles, Gilroy, Paraiso, Shasta Soda and others.

June 1890.

Capay Valley Land Company

is offering the MOST FERTILE LANDS to be found in California, under the most favoring climatic condition for the prosecution of profitable fruit growing, in one of the **EARLIEST LOCALITIES**

in California, upon terms which enable the purchaser of the land to pay for it out of its own produce.

The Capay Valley Land Company will sell

FIRST-CLASS FRUIT LAND

without the payment of any part of the principal, but by payment of

Interest only for FIVE YEARS,

the PRINCIPAL payable at the end of FIVE YEARS or sooner, at the option of the purchaser. Sales upon these terms are conditioned strictly and exclusively upon the

IMPROVEMENT OF THE LAND purchased. In this way, the

Most Desirable Fruit Land

in California is offered to the non-capitalist classes.

Some of the Tracts owned by the company have been sub-divided into

Ten and Twenty-Acre Lots

and may now be bought at reasonable prices, on the above-mentioned terms.

TOWN LOTS are for sale at Esposito, Cadenasso, Guinda and Ramsey.

Apply to or address,

Wm. H. Mills,

Agent of the Capay Valley Land Co.,
Fourth and Townsend Streets, San Francisco, Cal.

A RARE OPPORTUNITY

Good Agricultural Land for \$10 to \$20 per Acre.

The Pacific Improvement Company has recently purchased twelve thousand acres of land in the heart of Tehama County, for the purpose of promoting subdivision and settlement. This land embraces lands from first-class Sacramento Valley agricultural land, to land of fair average quality, and is offered at from \$10 to \$20 per acre, in subdivisions of 40, 80, 120, 160 and 320 acres.

The terms upon which these lands are offered are especially attractive. They will be sold in subdivisions, as above indicated, by the payment of interest only for three years, at which time the purchaser can begin the payment of principal by paying the first of five equal annual installments. Thus no part of the principal is to be paid for three years, and then the purchaser is to have five years in which to pay five equal annual installments, with interest at the rate of seven per cent. per annum, making payments extending over a period of eight years. Intending purchasers are assured that this is an opportunity to purchase land of fair average quality at \$10 per acre, and good agricultural land at \$20 an acre, with other grades of land at prices to correspond between these figures.

The assertion is frequently made that good lands, suitable for general farming, and especially adapted for fruit growing, cannot be had in California for less than from \$60 to \$100 an acre. An examination of the land subject of this advertisement will prove to home seekers that this is an opportunity for the purchase of good agricultural land at \$20 an acre, and for qualities grading down to fair agricultural land at \$10 an acre, on terms of payment which should make the disposition of these lands to actual settlers a result easy of accomplishment.

The primary object of the purchase of this body of land was the breaking up of a large holding for the purpose of promoting its settlement in smaller quantities and its devotion to diligent husbandry.

For further particulars call upon, or address,

WM. H. MILLS,
Land Agent of the C. P. R. R., Fourth and Townsend streets, San Francisco, Cal.

Wheat, Fruit, Grazing, Vineyards and Timber Lands

—IN AMERICA—

And are adapted to all purposes of profitable agriculture, and may be had in tracts of forty acres or upwards, at prices ranging from \$1.50 to \$35 per acre, according to quality, location and accessibility to the main line of either road

These lands will increase in value annually. Already thousands of heads of families have purchased land along the Central and Southern Pacific Railroads, and have erected thereon splendid farms and homesteads, while many hold lands that they purchased a few years ago for from \$2.50 to \$20 per acre at from \$25 to \$250 per acre, for speculative purposes.

Almost everywhere throughout the counties above named, no snow, and only an occasional frost, that does no harm, is even seen. There is really NO WINTER WEATHER in the southern portion of California, and not one home in one hundred ever has a fire except for culinary purposes. The summer weather is never oppressive, as in Eastern or Southern States, while the nights are cool the year round.

Every person contemplating permanent settlement at any point west of the Alleghany Mountains should, before applying elsewhere, address either

RAILROAD LANDS.

Splendid Timber, Agricultural and Fruit Lands in
California and Oregon,

Fine Grazing Ranges and Agricultural Lands
in Nevada and Utah.

The Central Pacific Railroad Company

Has lands for sale throughout the limits of the original grant to that road from Sacramento to Ogden of every variety and adapted to all the cultures, horti, flori, agri and viti. In California it has splendid timber lands for sale, in large or small quantities, and in Nevada and Utah grazing ranges that are not surpassed by the best ranges of Texas and New Mexico.

The California and Oregon Railroad Company

Has lands for sale from Roseville Junction, on the line of the Central Pacific, to Redding, at the head of the Sacramento Valley, and will receive applications from settlers, or those intending to make improvements, for its lands between the line of the Redding adjustment and the Oregon State line. The region between Redding and the north line of the State is one of the most picturesque in America and embraces some of the finest and most valuable timber lands in California.

The Oregon and California Railroad Company

Has lands for sale throughout the limits of its grant in Oregon, embracing some of the finest fruit, agricultural, grazing and timber lands of the Pacific Coast. This company owns a body of magnificent timber land, aggregating 40,000 acres, patented, and another contiguous body of about 50,000 acres, certified by the local authorities to be clear to the company. These lands are for sale in quantities to suit purchasers. They are very heavily timbered, intersected with streams, tributary to the Willamette river, by which fluming and rafting to market is made easy; and the whole body of 90,000 acres would make a basis for the largest and most economic lumber enterprise on the Coast. A survey of three among the best sections of this land gives an aggregate of fifty million feet of good, merchantable lumber.

The Southern Pacific Railroad Company

Has fine fruit, agricultural and grazing lands for sale within the limits of its grant in Southern California.

The Houston and Texas Central Railroad Company

Has five million acres of splendid prairie, grazing and timber lands for sale, embracing some of the best corn, cotton and wheat lands in Texas. These lands offer splendid opportunities for the investment of capital, and are now, for the first time, in the market.

In California and Oregon fruit can be raised anywhere below an elevation of five thousand feet; and in Middle and Northern California, and in Oregon, irrigation is not necessary. Lands in Central and Northern California and in Oregon will enhance rapidly and many fold in value. Values have never been inflated there by booms, and progress has been natural; besides, until the completion in the winter of 1887-88 of the through line between San Francisco and Portland, the lands in Northern California and in Oregon were almost without market facilities, whereas now, besides local markets, the markets of San Francisco and Portland are both and equally available. Lands in Southern Oregon and Northern California are comparatively new in the market and offer better opportunities for investment than the older and more thickly settled portions of the coast.

Address, at Fourth and Townsend streets, San Francisco.

FUNERAL TRAINS

— FROM —

SAN FRANCISCO TO HOLY CROSS CEMETERY.

DIAGRAM OF "FUNERAL PARLOR CAR."

NOTE—This car has been specially constructed for the accommodation of private funeral parties; it is handsomely appointed and has every convenience for retirement and comfort.

THE RATE FOR TRANSPORTATION OF THE REMAINS OF DECEASED PERSONS FROM SAN FRANCISCO TO HOLY CROSS CEMETERY IS \$1.00.

"THE REMOVAL PERMITS" OR THE "BURIAL PERMITS" issued by the Health Officer of the City and County of San Francisco, must be shown in every instance to the Southern Pacific Company's Agents at Townsend Street or Valencia Street Depots, before the remains can be accepted for transportation.

UPON PRESENTATION OF THESE PERMITS, our Agents will make a record of the form and number of the same and return them to the persons in charge for presentation at the cemetery.

The Southern Pacific Company will decline to receive for transportation the body of any person who has died of Smallpox, Scarlet Fever, Diphtheria or Yellow Fever, unless hermetically sealed in a zinc-lined case or coffin.

LOCAL ROUND-TRIP PASSAGE TICKETS.—San Francisco to Holy Cross Cemetery and return, will be sold as heretofore, at the rate of 50 cents each.

SPECIAL NOTICE.

Arrangements can be made with the Passenger Department of the S. P. Co.—Coast Division—(Room 29, Fourth and Townsend Streets)—for the transportation of funeral parties at the following rates, viz:

FOR A SMALL FUNERAL PARTY—(not desiring special accommodations):—Purchase necessary number of Round-trip tickets for either of the Regular Funeral Trains at 50 cents each, also, procure from the Ticket Agent a special ticket for the transportation of the Remains, which are carefully carried in Baggage Car; this ticket will cost \$1.00 additional.

FOR A FUNERAL PARTY OF FIFTY (50) PERSONS OR LESS, with exclusive use of a first-class Passenger Coach attached to either of the Regular Funeral Trains, the cost will be \$20.00 for the round trip; in the event of there being upward of 50 persons in such cars, a charge of 40 cents per capita will be made for all in excess of that number. The remains will be carried in Baggage Car unless it is desired to have them cared for in Coach, in either case a Special Ticket costing \$1.00 must be procured from the Ticket Agent.

FOR A FUNERAL PARTY OF TWENTY (20) PERSONS OR LESS, occupying a FUNERAL PARLOR CAR, the charge will be \$50.00 for the round trip. This charge includes the transportation of the remains, which are placed in a compartment of the car specially arranged for that purpose. (See diagram above). ALL OVER 20 PERSONS occupying this car will be charged for at the rate of 50 cents each for the round trip.

FUNERAL PARTIES REQUIRING ACCOMMODATIONS IN EXCESS OF THE ABOVE SCHEDULE will be charged proportionately, as the case may be.

IN ALL CASES WHERE SPECIAL TRAINS are desired, an ADDITIONAL CHARGE of \$50.00 will be made for use of SPECIAL ENGINE.

REGULAR FUNERAL TRAINS.

Leave SAN FRANCISCO, daily at 11.20 A. M. and 12.30 P. M. Returning, arrive in SAN FRANCISCO, daily, at 1.39 P. M. and 3.00 P. M.

OVERLAND ROUTES.

For those who intend to make a visit to the Eastern States, there is a choice of three overland routes, each having peculiar advantages and none at all like the others.

THE SUNSET ROUTE is the one which runs southward through California, crossing Arizona, New Mexico, Texas and Louisiana, terminating at New Orleans, whence there is a choice of routes through the most attractive section of the Southern States. The ride from San Francisco to New Orleans is delightful in winter, as in place of snow the traveler is borne through a semi-tropic region abounding in orange groves, ancient ruins, grand river scenery, and sugar and cotton plantations. The attractions of this route are fully set forth in "West by South, One-half South," a unique publication just issued, which can be obtained by sending 25 cents in postage stamps to T. H. Goodman, G. P. A., San Francisco.

THE CENTRAL ROUTE runs from San Francisco to Ogden, where connection is made with fast lines running to all points east of the Rocky Mountains. This is the oldest of the routes, and is a great favorite. It discloses some majestic scenery in the high Sierras. Dining-cars run on this line clear through to Chicago.

THE SHASTA ROUTE runs from San Francisco to Portland, Oregon, where there is a choice of connecting lines taking a traveler through the great Northwest, a marvel of industrial development. It is on this line that one sees the matchless beauties of the Siskiyou Mountains, justly famed as the noblest mountain scenery on the continent. A view of Mt. Shasta is worth crossing the continent to obtain.

THESE THREE ROUTES, the three main arms of the great railway system of the Southern Pacific Company, carry the traveler through the best regions of California, and any one of them will reveal wonders of climate, products and scenery that no other part of the world can duplicate.

SUMMER AND WINTER.

A remarkable peculiarity of California is that the most of its health and pleasure resorts are as delightful in winter as in summer. There are delights peculiar to each season, and, as the charms of no two places are exactly alike, the variety is endless.

IN THE SUMMER the mineral springs in the central and northern parts of the State do their largest business in taking care of Californians principally. **IN THE WINTER** Eastern people come by thousands to all the seacoast resorts from San Francisco to San Diego, and enjoy delights of warm sunshine and balmy ocean breezes that have no equal elsewhere in the world.

The **SOUTHERN PACIFIC COMPANY** has so run its numerous lines and branches as to make accessible every spot of health, interest or pleasure in the State, and every care is taken for the comfort and convenience of travelers. By means of this road the wonders of Yosemite are unlocked to the public, and by the same means are reached all the best summer and winter resorts of the south. Among these are Long Beach, that delightful spot on San Pedro Bay; the island of Santa Catalina, reached by steamer from San Pedro; Santa Monica, the seaside pride of Los Angeles; Santa Barbara, whose graceful beauties have been heralded over the world; San Diego, with its tropical climate and beautiful bay; Monterey and the Hotel del Monte, the most delightful place in the world for either winter or summer.

And there are all the famous **MINERAL SPRINGS** reached by the lines of the Southern Pacific Company—Paso Robles, Tassajara, Gilroy, Alum Rock, Saratoga, Congress and others on the Coast Division; Klamath Hot Springs in the north and Byron Hot Springs behind Mt. Diablo. There is also the wonderful list of springs in the neighborhood of Clear Lake, and the remarkable geysers of Sonoma.

CAPAY VALLEY,

The Earliest Fruit Land in the State.

EQUAL IN ALL RESPECTS TO THE FAMOUS VACA VALLEY WHICH IT ADJOINS.

UNPRECEDENTED TERMS.

INTEREST ONLY FOR FIVE YEARS AT 7 PER CENT.

Capay Valley is situated in Yolo County, about 90 miles by rail from San Francisco, and is traversed in its entire length by the Woodland, Capay and Clear Lake Railroad, the distance from Esparto to Rumsey being twenty-one miles.

THE CAPAY VALLEY LAND COMPANY is offering the most fertile lands in this beautiful valley, upon terms which enable the purchaser to pay for the land out of its own product; viz.: Interest only for five years at 7 per cent. — The only condition imposed is, that a reasonable proportion of the land shall be planted to fruit trees or vines. Land may be bought without this condition on payment of 20 per cent cash and remaining 80 per cent at the end of five years, with interest annually in advance, at 7 per cent. The various tracts owned by the Capay Valley Land Company have been subdivided into ten and twenty acre lots, which are for sale at prices varying from \$50 to \$150 per acre. Similar unimproved land in Vaca Valley has recently been sold at \$400 to \$500 per acre.

These Capay Valley lands are under the most favorable climatic conditions for the prosecution of profitable fruit growing, and the locality has proved itself to be one of the earliest in the State. The grape crop of 1890 from the Company's vineyard at Cashmere, was picked, dried, and shipped to Chicago and Philadelphia before the Fresno County grapes were ripe.

The railroad passes through all of the tracts owned by the Capay Valley Land Company, thus insuring excellent shipping facilities; and land may now be purchased in the immediate proximity of either of the following stations: Capay, Cadenasso, Surrey, Guinda, Sauterne, Cashmere or Rumsey.

## Mount Shasta.

At the point where the Coast Range and the Sierra Nevada unite in the northern end of California stands Mount Shasta, the keystone of this mountain arch and the most striking of all the mighty earth-giants in the northern half of the continent.

For many years after railway building had been well developed in California and Oregon the stupendous barrier of Mount Shasta and its frowning environment of lofty mountains and frowning gorges prevented the uniting by rail of these two States, but the splendid problem was attacked by the Southern Pacific Company, and the mountains were carried by storm in 1887, and the wonders of the Siskiyou range brought to the notice of the world. Thus came into existence the "Shasta Route," to-day the most brilliant stretch of railroad scenery on the continent.

The road going northward follows up the gorge of the Sacramento all the way from Redding to a point near the head of the canyon, crossing the river eighteen times. At the eighteenth crossing the road, making an enormous letter S, swings boldly up to a wide plateau, on which stands the town of Mott. A half mile south of the eighteenth crossing (a mile from Mott by the trail and six miles by the railroad) is one of the most remarkable springs in the world, just coming into notice—the Shasta Spring, pouring out every minute twenty gallons of deliciously cold mineral water of extraordinary healing virtues.

This spring was recently purchased by a strong company, the Mt. Shasta Mineral Spring Company, which has erected extensive bottling works on the premises and enclosed the spring in a concrete structure surmounted by a handsome pavilion. It is immediately on the line of the railroad, and the trains stop there ten minutes to give the passengers an opportunity to drink the water without cost. Although the company is bottling and shipping this water in great quantities daily, and thus made its use accessible to all, the instantaneous popularity which it has secured has created a demand for local accommodation for those who want the full benefit of the water and climate combined. But it takes time to prepare the ground and erect a large hotel, and so, in order to accommodate the present season's business, the company, on the 15th of this month, will open a camp, starting with fifty comfortable tents and a large dining tent, with an expert caterer in charge.

The spot selected is beautiful beyond the conception of those who are familiar with the scenic charms of these noble mountains. It is on a plateau above the springs and not visible from the railroad by reason of the majestic timber which intervenes. It is an extension of the plateau on which Mott stands, and is three hundred feet above the spring. Fifty years ago a large Indian village occupied the romantic site, and later it was the camp of 2,000 men employed in building the railroad. It is a large level plateau, covered with splendid oaks, cedars, spruces, sugar and yellow pines and an abundance of wild flowers. The historic California and Oregon stage-road passes alongside the camp. What tales of suffering and hardship, of hopes and ambitions, of dreams of gold, of loads of treasure, of experiences with highwaymen in the early days this old road could tell if it might.

Water for the camp is supplied by a pipe running past every tent. It comes from a hydraulic ram at the Keystone spring, a bold stream bursting out of the rocks on the mountain side and fed through underground channels from the melting snows of Shasta. This water, as well as that of Glacier spring, is soft and free from mineral and is as cold as ice-water, as its constant temperature is 43 degrees. Glacier spring is a marvel. It has been handsomely fitted up with a concrete basin. A pipe leads from it to the bottling works below and the pressure on the pipe at the lower end is 150 pounds to the square inch. A fountain throwing a stream a hundred feet high plays below, and in a slight breeze the spray of the lofty column sways to and fro, making a brilliant new rainbow with every motion.

Connecting the camp above with the station below are romantic trails, free from dust, and winding in and out among the giant trees. The face of this broad slope is a striking picture. The inclination is about forty-five degrees, and the whole face is covered with stately trees and giant boulders, relieved by shrubs of brilliant green, red, brown and yellow foliage, while azaleas, tiger lilies, wild heliotrope and other flowering plants add their perfume and gorgeous coloring. But the most striking of all the features of the slope are the numerous cascades which come leaping and tumbling down, rushing in haste to join the foaming waters of the Sacramento far below. Along and over these wind the lovely trails, crossing and recrossing them many times over pretty rustic bridges, winding in and out from the coolest and deepest shades to the glowing sunshine, giving wider and broader views, at every turn, of the great canyon and the roaring river. The graceful curves of the railroad swing into view, and no sight is stranger than the long trains winding along far below like monstrous caterpillars.

The station of Shasta Spring is 2,510 feet above the level of the sea, and the camping ground (which is the site selected for the hotel soon to be built) is 2,800 feet above sea level. Here the fogs of the coast are practically unknown. The pure air is sweet with the balsamic odors of the pines and the cool breezes are delicious.

Amateur photographers will be delighted to learn that Mr. W. G. Scott, the gentlemanly manager of the camp and constructing superintendent of the company, is preparing a dark room, with running water, for their convenience.

The plateau on which the camp is situated is on the southern flank of Mount Shasta, the glory of the region. His towering slopes and pointed twin summits, glittering with perpetual snow, gleam upon the camp through the foliage of the trees, his dazzling peaks weaving fleecy snow-banners 11,000 feet above the camp. The great mountain looks very near, but the summit is fourteen miles distant in an air-line. With a glass one may see the curious details of his gigantic form, and also the black geodetic monument, with its nickel-plated cap, reared on the loftiest pinnacle.

The ascent of Mount Shasta—not a difficult or dangerous feat—is a treat in store for all men and women with a little pluck and a large love of nature's wonders.

There is not room here for a detailed account of the merits of the Shasta Spring, but pamphlets fully covering the ground will be furnished on application to the Mount Shasta Mineral Spring Company, of which Hall, Luhrs & Co., 908 and 910 Second street, Sacramento, or 201 Front street, San Francisco, are the general agents. The officers of the company are C. A. Yoerk, President; L. B. Mohr, Vice-President; T. B. Hall, Treasurer, and A. Andrews, Secretary. E. S. Tomblin is Superintendent of the bottling works. The spring is a soda spring, with certain peculiarities which give it a distinctive character. It is very heavily charged with carbonic acid gas, containing more than any other spring on the Coast. It bubbles freely. Dr. Walter S. Haines, Professor of Chemistry in Rush Medical College, Chicago, made a chemical analysis of the water, and in his report said: "In its composition this water closely resembles those from the well-known springs of Vichy in France and Ems in Germany, and its chemical analysis shows it to be fully equal in most, and in many important respects decidedly superior to those valuable waters."

The water has a temperature of 50 degrees, which is cold. The taste is exceedingly pleasant, and the abundance of carbonic acid gas gives it a delicious piquancy. In bottling it no charge of artificial gas is made. It makes the finest lemonade imaginable.

In a summary of his report on the medicinal value of this water, Dr. James H. Etheridge, Professor of Materia Medica

and Medical Jurisprudence of Rush Medical College, said:

"To recapitulate: We have an alkalizing action upon the system which is so all-important to nutrition and the restoration of health."

"We have the blood-repairing element in the iron, and the alterative action of the arsenic."

"In the magnesium is found laxative ingredient, which combined with the aforementioned alkalizing, blood-restoring and alterative effects obtainable from the Shasta water, presents to the invalid world a mineral water combination rarely found in any country."

"The class of cases that ought to be benefited by this water are those of chronic indigestion and constipation with all their protean results. And when we reflect that a very large proportion of the invalid world have these difficulties, it will be seen how broad the application of this water may become."

"Another class that can be greatly benefited are those suffering from blood poverty produced by the very many different causes which bring it about."

"And lastly, the class of patients who are in need of alteratives, and the alterative effects produced by arsenic, will unquestionably be benefited by a course of Shasta Water."

The country immediately contiguous to the spring is singularly attractive. Nearly all the glories of the northern mountains are close at hand.

A few hundred yards south of the spring, on the railroad, are the beautiful Mossbrae falls.

Half a mile from the camp are the Hedge creek falls, a noble plunge of fifty feet into a handsome pool.

Castle crags, that terrible uplifted mass of perpendicular granite shafts, 6,000 feet high, are one of the features of the Shasta route, and are near to the spring. On the western side of Castle crags is Castle lake, 5,000 feet above sea level, a beautiful sheet of water, full of fish, with accommodations provided by Doc Parker, a famous guide to Mount Shasta. The Mount Shasta Mineral Spring Company is preparing to open a saddle-horse trail to the lake, shortening the distance of the present trail about one-half.

The fishing all about is the finest in the State. The Sacramento river, at the very doors of the spring, has abundance of fish, and the best fishing stream in the State, the McCloud river, is only a few miles away, with branch hotels of A. Blohm & Co. of Mott, and Mr. Sisson of Sisson for the accommodation of fishermen.

Hunting is excellent, deer and mountain quail being abundant. Health and pleasure, strength and youth, all the sweetest charms of nature, all the graces of earth and sky, all the noblest of nature's splendid works, are awaiting the visitor to this wonderful spring. So rare a combination it would be difficult to find elsewhere in the world.

Immediately near the spring is the town of Mott, on the edge of the plateau. Here are good stores and an excellent hostelry, the Shasta View Hotel, presided over by A. Blohm, who makes the visitor forget that he is away from home. They have excellent livery teams, and the charges are very moderate.

Just back of Shasta View Hotel is Eagle Cliff, where from a platform one looks down upon the winding railroad doubling back upon itself and the white waters of the Sacramento river. Mr. Blohm knows all about the country; he is a walking encyclopedia as well as a caterer who likes to put a good edge on an appetite before presenting the opportunity for dulling it.

The Southern Pacific Company offers every inducement to visit this spring and the charming country thereabout. Round trip tickets are sold at greatly reduced rates. Full particulars may be had from any of the agents of the company.

## The Mutual Reserve Fund Life Association,

HOME OFFICE, POTTER BUILDING, 38 PARK ROW, NEW YORK.

It has already paid to the widows and orphans of the deceased members death claims to the amount of more than \$10,500,000. It has more than \$3,000,000 cash surplus. It has saved its members by reduction of premiums more than \$25,000,000.

**E. B. HARPER, President.**

From "Pump Court," London—England's Great Law Journal.

The tenth annual report of this phenomenally successful association was presented to a large and enthusiastic meeting of members on the 28th of January, by President Harper. Before dealing with the marvelous figures we must pause to congratulate ourselves on the fact that *Pump Court* was the first among English journals to recognize the soundness of the principles on which the system of the Mutual Reserve is based. At a time when it needed some nerve to defend those principles, we determined that the interests of the public should be our sole guide, and, having investigated the principles of the Mutual Reserve, we found that we could serve the public in no better way than by bringing to the attention of our readers the advantages of this economic and mutual system, and we take some pride in the knowledge that our efforts have been successful. The British public, as a rule, take the opinion and advice of their lawyer on almost every affair of their lives, and thus we have been indi-

rectly, as well as directly, the means of satisfying the public of the advantages offered by the association.

The report now before us shows that the society is still progressing by leaps and bounds. It is but ten years ago since the Mutual Reserve Fund was founded, and the record for the year 1890 may well be claimed as marvelous. No other life institution has ever, in the same period, made such rapid strides. Its record is pleasant reading. It shows that our people are not so slow to appreciate a good thing as is sometimes pretended. A low mortality rate, an economic management, equitable dealing and cheapness are facts that the public here are not slow to recognize. We cordially welcome the Mutual Reserve in introducing a system which not only works direct benefit for those who join it, but indirectly has served to stimulate some old British companies to a generous rivalry in their increased offer of advantage to policy-holders.

"The Bible and the insurance policy are two things that make life pleasant."—Hon. John M. Thurston.

## A RARE OPPORTUNITY!

Good Agricultural Land for \$10 to \$20 per Acre.

The Pacific Improvement Company has recently purchased 12,000 acres of land in the heart of Tehama County for the purpose of promoting subdivision and settlement. This land embraces lands from first-class Sacramento Valley agricultural land, to land of fair average quality, and is offered at from \$10 to \$20 per acre, in subdivisions of 40, 80, 120, 160 and 320 acres.

The terms upon which these lands are offered are especially attractive. They will be sold in subdivisions, as above indicated, by the payment of interest only for three years, at which time the purchaser can begin the payment of principal by paying the first of five equal annual installments. Thus no part of the principal is to be paid for three years, and then the purchaser is to have five years in which to pay five equal annual installments, with interest at the rate of seven per cent per annum, making payments extending over a period of eight years. Intending purchasers are assured that this is an opportunity to purchase land of fair

average quality at \$10 per acre, and good agricultural land at \$20 an acre, with other grades of land at prices to correspond between these figures.

The assertion is frequently made that good lands, suitable for general farming, and especially adapted for fruit growing, cannot be had in California for less than from \$60 to \$100 an acre. An examination of the land subject of this advertisement will prove to home seekers that this is an opportunity for the purchase of good agricultural land at \$20 an acre, and for qualities grading down to fair agricultural land at \$10 an acre, on terms of payment which should make the disposition of these lands to actual settlers a result easy of accomplishment.

The primary object of the purchase of this body of land was the breaking up of a large holding for the purpose of promoting its settlement in smaller quantities and its devotion to diligent husbandry.

## SUBDIVISION

OF

Large Land Holdings.

Developing of the State by Attracting  
Settlers.

The Land Department of the C. P. R. R. Co. offers about 5000 acres of land, located in Glenn County, ten miles from the new county seat of Willows, in Township 18 north, range 3 west, M. D. M., at prices ranging from \$16 to \$30 per acre. These lands are all first class wheat lands and are offered on the following terms:

Twenty per cent of the purchase price cash at the time of the purchase, with 7 per cent interest payable in advance on the deferred payment; ten per cent of the purchase price in one year; ten per cent in two years; twenty per cent at the end of three years; twenty per cent at the end of four years; and twenty per cent at the end of five years. Total in six payments, as above indicated, extending over a period of five years. All lands summer-fallowed at the time of sale to be paid for by the purchaser at \$2 per acre.

The Land Department of the Central Pacific Railroad Company has taken charge of the sales of these lands by direction of the Directors, for the purpose of promoting their subdivision.

The line of the Northern Railway runs on the west line of the tract.

Large warehouse accommodations and railroad station immediately adjoining.

The lands have, therefore, every facility of transportation, and are located contiguous to a station, and in all respects offer the highest inducements to purchasers.

An agent on the ground to show intending purchasers the land. Address

## Capay Valley.

The Earliest Fruit Land  
in the State.

Equal in All Respects to the Famous  
Vaca Valley, Which It Adjoins.

UNPRECEDENTED TERMS.

Interest Only for 5 Years at 7 per  
cent.

Capay Valley is situated in Yolo County, about 90 miles by rail from San Francisco, and is traversed in its entire length by the Woodland, Capay and Clear Lake Railroad, the distance from Esparto to Rumsey being 21 miles.

The Capay Valley Land Company is offering the most fertile lands in this beautiful valley upon terms which enable the purchaser to pay for the land out of its own product, viz.: Interest only for five years at 7 per cent. The only condition imposed is that a reasonable proportion of the land purchased shall be planted to fruit trees or vines. Land may be bought without this condition on payment of 20 per cent cash and remaining 80 per cent at the end of five years, with interest annually in advance at 7 per cent. The various tracts owned by the Capay Valley Land Company have been subdivided into ten and twenty-acre lots, which are for sale at prices varying from \$50 to \$150 per acre. Similar unimproved land in Vaca Valley has recently been sold at \$400 to \$500 an acre.

## C.P.R.R.

Timber  
Lands.

California produces many varieties of valuable trees, which grow both on the mountains and in the valleys, the greatest portion being in the Sierra Nevada Mountains, through which the C. P. R. R. is built. The oak, manzanita, nut pine and other varieties grow to an elevation of about 2,500 feet above the sea, and dense forests of cone-bearing trees are found at an altitude as high as 7,000 feet. The trees ranking first in size (known as the Big Trees) attain a height of 300 to 400 feet, with a diameter of 35 feet, but are not common in California forests. The redwood is the second tree in size in the State and the first in commercial value. It is used for lumber, fencing, ties and fuel, and for all kinds of rough and fancy building. The redwood tree is never found outside the State. The white oak grows to a considerable size, but is of little value except for fuel. Laurel is one of the most beautiful trees of California, madrona the most striking. There are other valuable and beautiful trees in the State, such as the juniper, yew, walnut, cypress, poplar, willow, live oak, sycamore, buckeyes, cottonwood, etc. These timber lands can be bought at prices ranging from \$250 to \$15 per acre. ## SAN FRANCISCO NEWS LETTER.

Dec. 25, 1892.

## A GREAT NATURAL SANITARIUM.

THE Coast Range of mountains, running southward from just below San Francisco to Monterey, in California, a distance of about 100 miles, has all the requisites of a splendid sanitarium.

The summits of the range vary in altitude from 1,500 to 3,500 feet, and are from six to fifteen miles, "as the crow flies," from the ocean, or on the south, Monterey Bay. At this distance from the coast, the keen ocean winds are tempered, their sharp edge taken off, and they become genial and refreshing. Much of the range is covered by forests of gigantic redwoods and firs, with occasional openings where the oak, laurel and picture-que madrone are found. These forests continue, on the western slope, almost to the ocean, and on the east run far out on the foothills.

The influence of the ocean, with its great Japan current, the *Kuro Sivo*, gives to this region a temperature more equable than is found in any other part of the State. The thermometer rarely falls below 32 degrees in winter, and in summer, even at midday, it seldom reaches 85 degrees. The nights are always cool and refreshing, and it is an ideal place for good sleeping.

The air is free from malaria, is freighted with the healing balsamic odors of the firs, pines and redwoods, and when freely inhaled on a clear morning it stimulates like wine. The ocean fogs, while crossing the lower lands, are generally entangled in the evergreen treetops and held there, making for the observer, at an elevation of 1,500 to 2,000 feet, the picture of a great fog ocean, with its ever changing billows rolling along. Such a picture once seen, especially when flooded by a glorious moonlight, will never be forgotten.

At the elevation referred to, the air is always rare and generally dry, two conditions very favorable to persons suffering from any pulmonary disease. Asthma and catarrh are at once relieved, and in many cases entirely disappear, while the progress of bronchitis and consumption is at once arrested.

Here, too, is enough to keep the mind continually and very pleasantly occupied, an important consideration in a health resort. The scenery is magnificent, and if one can travel, ever changing. Here are found in their perfection the colossal redwood cathedrals that so impress every beholder. Around the former standing-place of some forest giant, now crumbled to dust, have sprung up innumerable root-shoots, forming a thick and sometimes almost impenetrable hedge, in circular form, the enclosure varying from thirty to sixty feet in diameter. The stronger shoots, somewhat dwarfing the others, towering aloft, have become themselves great forest trees, and they form an immense cathedral, solemn and still within, surrounded by living towers and minarets, almost as tall and far more graceful than any ever reared by the hand of man. Are these not "The Groves" that were God's first temples?

These mountains have an abundance of pure cool water, and all through them mineral springs abound, whose waters, for medicinal purposes equal, if they are not superior to, the best foreign mineral waters.

## Why Visit California?

The most pointed and sensible answer is because it will do you a world of good. Seeking after knowledge, wealth, health and the many other good things of life is the spirit of this age, and one of the most agreeable means to their attainment is travel. But all good endeavor, like charity, if possible, should begin at home.

It is not the best evidence of good purpose to attempt its fulfillment in far away places. Sir Launfal explored the whole world in search of the Holy Grail, only to return after a lifetime of wasted endeavor, broken in body and spirit, to find it lying at his own threshold.

We point the moral by asking: Why go to Europe for sights and delights and benefits that can be as well had in California, not one whit lacking in quality, and at less cost? Why go to Switzerland for scenery that is surpassed in Yosemite and equalled in many other portions of California? Why travel half round the world to climb the Alps, when the Sierras are just as magnificent? Why indulge in such extravagant praise of Lucerne and Geneva without knowing the beauties of Tahoe and Clear lakes, and the weirdness of Crater lake? Why spend a fortune and risk life taking your aches and ills to Carlsbad, Vichy, Stachelberg or Weissenburg, when so much nearer are Bartlett Springs, Harbin Springs, the Geysers, Napa Soda Springs, Paso Robles Hot Springs, Byron Hot Springs, and a score more equally famous for their cures? Why struggle so hard to scale Matterhorn and Blanc, when grand old Shasta towers equally high? Why go to Italy for climate that can be found quite as genial in California? Why boast so of European caravansaries and watering places, when Del Monte leads the world in beauty, elegance, delightful hospitality and moderate charges? Why exclaim in such amazement at the engineering feats of Pilatus and St. Gothard, when equally difficult feats have been achieved over the Sierras, and through the Siskiyou by the Southern Pacific Company?

These significant questions have been all answered in the true patriotic way by the Southern Pacific Company. Know the worth, beauties and wonders of your own country first. If you are in search of pleasure, health, scenery, a place to build a home, genial climate, a land rich in the beneficent gifts of nature, ask any agent of this company for the desired information.

The three routes of the Southern Pacific Company will take you to any desired locality, the "Sunset" by way of New Orleans, through Texas, New Mexico, Arizona and into the southern portion of California; the "Ogden" by way of Ogden, through Utah, Nevada and over the Sierra Nevada; and the "Shasta" by way of Portland, through Oregon and the Siskiyou mountains into the northern part of California. These routes afford splendid opportunities for viewing the countries through which they pass, and the visitor will never regret having taken the trip.

## California as a Place for Rural Homes.

There is no part of the world better adapted by all that nature can do, for comfortable rural homes, than is California. That this phase of life has not more rapidly developed is chiefly attributable to the fact that so large a portion of the parts of the State where permanent settlements were first founded, was distributed in immense Spanish grants, making large holdings, whose owners were averse to selling any of their possessions.

The "Whirligig of Time" that makes all things even, has greatly changed this feature. These tracts are now being subdivided and sold, and a home-seeker will find no difficulty in obtaining at a reasonable outlay, a place that must satisfy the most exacting.

It is sometimes said that to live in California one must be wealthy. On the contrary, there is no other place where a family of moderate means can make a living more easily, or where they can enjoy one-half the luxuries that are within their reach in California. It certainly is not wise for a family to land there with nothing ahead. One who has not been thrifty enough to accumulate a little in other places would hardly succeed there. But little capital, however, is required. A small tract of land, ten or twenty acres, is ample; a few acres in vineyard and a few in orchard, both carefully selected in regard to varieties, and in from three to five years there is assured an annual income of \$1,500 to \$2,000. The work should, and can be done all within the family, and this income will therefore be nearly all net. Expensive buildings are not necessary, as the weather is always mild, life in the open air being entirely agreeable for ten months of the year.

During the time the orchard is coming into bearing, enough can be raised between the trees to furnish a family with subsistence, and as there is no fruit crop to harvest on the home place, there is time, as there is always opportunity, for those who choose, to find pleasant and remunerative labor upon places already in bearing, and this may add materially to the income.

Almost the entire coast range of mountains, especially from San Francisco to near Monterey, with the adjacent foothills, is admirably adapted to home-making in this way. The soil is fertile and well watered, the climate all one can ask, and land in abundance can be had at a low price and on easy terms.

For information as to any of these localities, and how they are reached, call upon or address the following named officers of the Southern Pacific Company.

## HOW TO SEE CALIFORNIA.

THE three great overland roads leading from the East to California, that are controlled by the Southern Pacific Company, present so remarkable a variety of attractions that it is difficult to advise travelers in the matter of a choice. Something depends upon the time of year, something upon the time at the disposal of the traveler, and something upon what is most desired to see. The three routes are the Sunset Route, the Ogden Route and the Shasta Route. The Sunset enters California at its southern edge, and traverses the whole southern half of the State to San Francisco. The Ogden Route crosses the State from the Sierra Nevada to San Francisco. The Shasta Route runs down the whole of the northern half of the State to San Francisco. Thus it is apparent there are very great differences in what is seen in California alone. Outside the State the differences are no less striking.

### THE SUNSET ROUTE

begins at New Orleans. It runs through the rich semi-tropical region of the South, revealing the fine old plantations, the charming city of New Orleans, the great farms where cotton, rice, sugar and tobacco are cultivated, a glimpse of Mexican civilization in Texas, New Mexico and Arizona, ruins of cities and castles giving hints of a civilization so old that hardly a record of it remains in history, and upon entering California takes us through the famous orange, lemon and olive orchards, on through the great San Joaquin Valley, with its world-famous orchards and raisin vineyards, and so to San Francisco.

### THE OGDEN ROUTE

is the oldest and with many the favorite overland road to California, running directly from Ogden across the table-lands of Utah and Nevada, crossing the snow-crowned Sierra Nevada, and passing through the old placer mining region that Bret Harte has made famous with his stories, and across the Sacramento Valley to San Francisco. This line has a dining-car service connecting through to Chicago and the Atlantic seaboard.

### THE SHASTA ROUTE

runs from Portland, Or., to San Francisco, traversing the richest and most attractive regions of Oregon, including the Willamette and

Rogue river valleys, and penetrating, by daring feats of engineering, the tremendous mountain barrier separating California and Oregon. This stretch of mountain scenery, occupying a whole day to pass through, has no equal on the continent for grandeur, beauty and variety. After crossing the Sierras we descend into California, and at once there rises into view the noblest of all the snow-clad earth giants of North America—Mount Shasta, a majestic extinct volcano, standing guard over the finest of nature's panoramas. The road drops down the gorge of the Sacramento River, and then emerges into the broad Sacramento Valley, through whose vast grain fields and orchards it pursues its way to San Francisco.

All of these three routes have close connections with Eastern lines; and the approaches to them by other roads are equally rich in diversified scenery.

It is not alone in bringing people to California that the lines of the Southern Pacific are rich in special attractions. All the desirable parts of the State are reached by the main or subsidiary lines of the Company. When this is said the almost endless list of California's wonders and attractions is suggested. These include things which are found in no other corner of the world; and they are indeed marvels of nature's caprice and magnificence.

THE YOSEMITE for instance, will never find a rival; and THE BIG TREES, towering toward heaven, will likely be living a thousand years hence with the vigor that encouraged their existence before the dawn of Christian civilization. There are mineral springs in greater number and variety, and finer efficacy, than the whole of Europe can boast. The splendid orchards and vineyards, where are grown semi-tropical products to be seen nowhere else in the United States, are in themselves not the least of the wonders of California. Besides these, there are geysers, petrified forests, mountain lakes, and numberless minor attractions. All of these wonders can be reached by the lines of the Southern Pacific Company.

Any desired information concerning California, and the best way for seeing it will be furnished by the following agents of the Southern Pacific Company; E. HAWLEY, Assistant General Traffic Manager, 343 Broadway, New York, N. Y.; W. G. NEIMYER, General Western Agent, 204 Clark street, Chicago, Ills.; W. C. WATSON, General Passenger Agent, New Orleans, La.; T. H. GOODMAN, General Passenger Agent, San Francisco, Cal.

### CALIFORNIA AS A SANITARIUM.

In an article written for the *Californian*, Lieutenant John P. Finley, of the U. S. Weather Bureau, makes the following statement: "Theoretically, California should furnish the best and the most varied health resorts and sanitariums in the United States. Within her borders almost every form of wasting disease should find the means of temporary, if not permanent, relief."

This theoretical statement, from an unbiased, scientific standpoint, is fully and abundantly confirmed by actual experience. The cool and bracing coast climate, devoid of any trace of malaria, extends from the northern part of the State to the extreme south. There is the choice between this cool, humid atmosphere and the dry, warm atmosphere of the inland valleys.

In the matter of altitude there is a yet greater difference. From Palm Valley, 300 feet below sea level, to the upper Sierras, 7000 or 8000 feet above, any altitude can be selected, and comfortable homes be founded.

The peculiarity of an almost rainless summer, during which the injurious germs of animal and vegetable decay are destroyed by thorough desiccation, is one of the striking features of California climate.

During the rainy season it is usually too cool to facilitate fermentation, and the result is, except along some of the river valleys, an absolutely pure atmosphere. The ocean winds, entering through the several coast openings, are tempered by the intermediate area passed over, and often receive desirable healing properties by taking up the resinous odors of the pines and redwoods on the Coast Range.

The skillful physician, acquainted with the climatic conditions, should find little difficulty in selecting a locality where climate and environment will do all that these agencies can ever do toward the restoration of health. There is enough of wildness to keep the mind constantly engaged, and enough of civilization to satisfy the most exacting.

Sufferers from pulmonary diseases, people whose systems are charged with malaria, or are "run down" by overwork, find immediate and, in many cases, permanent relief, in this invigorating climate, establishing anew the fact recognized by all intelligent persons, whether physicians or laymen, that "Nature is the best healer."
